

CARRANZA SEEKS \$100,000,000 LOAN

Authorizes Cabrera to Open
Negotiations in U. S.

(By the International News Service.)
Atlantic City, Oct. 23.—Luis Cabrera,
head of the Mexican peace delegation,
has been delegated by First Chief Car-
ranza to negotiate a \$100,000,000 Mexican
loan in this country, it was learned tonight.

The first chief is said to believe that the
commission will formulate some plan for
the settlement of the border wrangle
soon after November 7 and that shortly
afterward an agreement will be reached
regarding Mexico's taxation of American
properties south of the Rio Grande.

Following this step, according to in-
formation received by the American mem-
bers of the peace conference tonight,
Carranza expects to float his loan.

The report from Mexico City that Car-
ranza is to become Mexican Ambassador
to the United States was stamped as
false by Carranza's closest friends. The
stories, they said, have been prompted by
the fact that Carranza has been picked
for Mexico's chief financial agent in this
country after the adjournment of the
conference.

Cabrera has gone to New York during
each week-end recess of the commis-
sion, it was learned. In order to confer
with New York bankers and financiers
interested in Mexico. While in New York
he has also consulted with Alfredo Catu-
regli, Mexico's fiscal agent.

Carranza's representatives have worked
out a definite plan which provides for
the mortgaging of the Mexican export
duties and internal taxes.

WOMAN PAID \$12,000 TO BLACKMAIL TRUST

Men Charged with Extorting Sum to Be
Arraigned in New York Today.

(By the International News Service.)
New York, Oct. 23.—A woman who has
been fleeced on a wholesale scale and to
the tune of tens of thousands of dollars
by the nation-wide syndicate of
blackmailers working under cloak
of the Mann act.

This was the assertion today of Fed-
eral officials preliminary to the ar-
raignment tomorrow of James A. Brown,
alias "Military" Brown, Brown, whose
alias was won by his erect
bearing, will be arraigned before U. S.
Commissioner Houghman on a com-
plaint made by Special Agent Under-
hill, of the Department of Justice.

Underhill charges that on September
30, 1915, at Atlantic City, Brown con-
sulted with William Butler and Ed-
ward, alias "Doc" Donohue, to im-
personate government officers so as to
defraud "a certain person whose name
for the present is withheld for public
policy."

The "certain person" is understood to
be a Buffalo woman of wealth. She
became ensnared with one of the
members of the syndicate and went
with him to a hotel in the New Jersey
resort, where they registered as
man and wife.

After they had spent several days
in the hotel a second member of the
band broke into their apartment. He
described himself as an agent of the
Federal Department of Justice, exhib-
ited a bogus shield and threatened to
arrest them.

When the couple pleaded with him
not to arrest them the "agent" prom-
ised that if they could "make it worth
his while" he would let them go free.
Various sums were mentioned, and the
"agent" and the woman finally agreed
on the sum of \$12,000. Part of the
money was paid at the Atlantic City
hotel and the remainder was collected
from her in her home in Buffalo.

TEUTONS FIRMLY HOLD CONSTANZA

Roumanian Port Is Now in
Hands of Central Powers.

(By the International News Service.)
Berlin, Oct. 23.—The city of Constanza,
on the Black Sea, Roumania's greatest
port, and principal point of entry for
military supplies and Russian reinforce-
ments, tonight is in the hands of the
armies of the central powers.

The city fell after a three-days' drive
by the Teuton-Bulgarian army of Field
Marshal Von Mackensen.

Despite torrential rains, which con-
verted the normally swamp ground into a
vast morass, the Austro-Germans, Bul-
garians, and Turks, comprising the army
of invasion in Dobruja, advanced twelve
miles in forty-eight hours, driving the
Russo-Roumanian defenders before them
in disorganized retreat.

The advance was made on a front of
forty miles from the Black Sea to the
Danube.

Besides capturing Constanza, Macken-
sen's troops have cut the trunk line rail-
way from that city to Cernavoda, on the
Danube.

\$200 Barrel of Flour For President Wilson

From the wheat fields of Arkan-
sas President Wilson will be pre-
sented with the costliest barrel of
flour milled in America. It took
twenty-four bushels of the finest
wheat to make the 138 pounds of
flour that fill the round container.

Four and one-half bushels make
the ordinary barrel and six and
one-half bushels make it superfine.
The President's barrel would cost
\$200 in the ordinary market, but it
makes bread and other things, just
as the cheaper grades.

W. N. Adams, of Arkadelphia,
Ark., sowed the wheat and will have
the honor of making the presenta-
tion today at Shadow Lawn.
